Allowable Subject Matter

1. Claims 1-22 are allowed.

Reasons for Allowance

2. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The closest prior art is to Headrick et al (U.S Patent No. 6,535,889), and Herz et al (US Patent No. 6,571,279). Headrick et al disclose a method for associating a unique identification tag with an object, and Herz discloses the concept of modifying a user's profile. However, the combination of Headrick et al and Herz et al fails to teach accessing an object profile in accordance with the information retrieved from the tag and modifying/updating the unique profile in accordance with the object profile taken in combination with a method for updating a unique profile related to a person, said method making use of at least one physical object associated with the person and having a tag containing optically encoded or electronically stored information concerning the physical object as recited in independent claim 1.

code to modify a unique profile related to a person, said processor making use of at least one physical object associated with the person and having a tag containing optically encoded or electronically stored information concerning the physical object as recited in independent claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. Huffman (WO9722106) discloses a method of creating a personal log of activity of a user.
- b. Williams (WO9747135) discloses a method for updating a user preference data.
- c. Evans (EP0640938A2) discloses a system for creating images of guests.
